**fiskaltrust.
Service**

**Peace of mind with our carefree packages:
Perfect for every cash register, regardless of
the manufacturer!**

ChaîneLocale

starting from €0/month only

Ideal solution for PC cash registers, which have been installed on site by the user.

ChaîneCloud

starting from €4/month only

Perfect for web shops, app-based cash registers with a permanent internet connection.

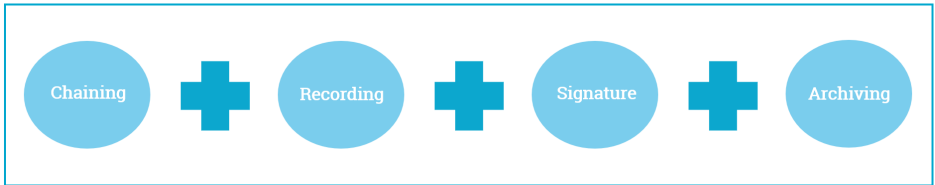

ArchiveAuditable

starting from €10/month only

This option enables the recording and archiving of relevant tax data.

fiskaltrust's solutions for your cash register

Using chaining, all documents are numbered and linked together. Thus, the legal protection against manipulation of data is guaranteed.

With our recording system, every saved document is automatically saved in a secure way by our system.

With our signature system, each created document will have a unique QR code to simplify tax administration audits.

Thanks to our archiving, all the relevant tax data is archived and can be made available to the tax authorities, in case of a control.

Whether you are a POS Operator, POS Dealer or POS Manufacturer, fiskaltrust guarantees a secure fiscalization for cash registers!
